

# INDUSTRIAL LUBRICATION FITTINGS

## RELIEF FITTINGS

Alemite Relief Fittings are used on gearbox housings and bearings (king pins, universal joints, etc.) where excessive lubrication pressure is not desired.

**FEATURES:**

- Exceeds 72 hour salt spray test
- Trivalent zinc plating
- RoHS compliant
- Fittings open at predetermined pressure (see table)
- May be used with grease or oil
- 338382 is a leak proof fitting

**RECOMMENDED ACCESSORIES**

- 1/8" – 1/4" Bushing (45120)

### British Standard Pipe Thread Fittings

**FEATURES:**

- Dirt excluding check ball
- Trivalent zinc plating
- RoHS compliant

Product #	Description	Opening Pressure
317400-E	1/8" BSPT Relief Fitting	1/4 to 1 psi
47200-E	1/8" BSPT Relief Fitting	1 to 5 psi
47100-E	1/8" BSPT Relief Fitting	45 to 80 psi
