

Brass Hose End Fittings

Neta brass garden hose fittings are **guaranteed for 20 years** and are designed to suit **Australian & New Zealand** conditions. Available in **12mm or 18mm** and manufactured using solid brass there is a Neta hose fitting for every watering application. Customers can choose from the Neta range of brass fitted hoses or retrofit brass fittings onto an existing garden hose.

Features & Benefits

- Available in adaptors, connectors, hose fitting sets, joiners and couplers
- 20 year No Break Guarantee
- Available in 12mm or 18mm
- Available in click-on, screw-on and barbed tail range fittings
- Made from solid brass
- Screws onto standard 3/4" and 1" tap outlets
- Features Neta's 'Long Claw' grip ring
- Features Neta's 'X-Stream' lock ring
- Features Neta's 'Multi-Fit' hose clamp

Neta Long Claw Acetal grip ring high pressure anti-leak sealing system

The *Long Claw* is Neta's secret for heavy duty applications. It's separate to the rest of the fitting, allowing it to really dig its claws into the hose to create a connection that won't break or leak.

When combined with a Neta hose it gives the ultimate connection and protection against leaks - all part of our anti-leak sealing system. The Neta *Long Claw* grip ring is available in both 18mm plastic and brass hose connectors and joiners.

Long Claw Grip Ring Assembly

Washer

Quality anti-leak washer and O-Ring

Click-on

3 grip clips inside

Hose Tail

Extra long hose tail

Long Claw

Long Claw for extra grip. Made from strong acetal

Nut

Easy grip nut

The Neta X-Stream Lock Ring

Extreme pressure anti-leak sealing system. It locks into place and is ideal for extreme pressure applications.

The Neta Multi-Fit Hose Clamp

Adjusts to fit various hose thicknesses to form part of the anti-leak sealing system.
