

CORROSION[®]X HD

HEAVY DUTY

For those really tough jobs, like those involving direct exposure to rain, snow or seawater, use CorrosionX Heavy Duty. It's a high-performance, thick-film version of CorrosionX providing maximum protection against serious rust and corrosion. There is simply no other product like it!

WHAT IT DOES

CorrosionX Heavy Duty forms a dripless, non-hardening, self-healing film that stubbornly resists removal – even by complete immersion in salt-water. CorrosionX Heavy Duty slowly penetrates existing rust and corrosion, removes moisture and then seals the moisture out.

Field & Stream magazine editor Bob Sterns, considers it a must for boat trailers:

“An annual coating of CorrosionX Heavy Duty will help protect the leaf springs from rusting. This coating will also help protect the trailer frame and ensure easy removal of nuts and bolts.”

HOW IT WORKS

Unlike wax coatings, its non-hardening film will not dry out, stiffen or crack. Under stress, it bends as the metal surface flexes or twists beneath it. It won't wash off even after being submerged in water for hours.

LONG-LASTING

CorrosionX Heavy Duty will still be there long after other products have disappeared. And, it will protect your equipment and save you money more effectively than anything else.

THOUSANDS OF USES

Marine

- Power drives, engines, generators and A/C units
- Throttle cables and steering mechanisms
- Winches, furling systems, windlasses, cleats, hatches, stanchions, downriggers and all other deck hardware
- Battery terminals, wiring harnesses, circuit breakers and fuse holders
- Instrument and nav light connections, electrical panel and ignition switch
- Often restores electronic gear exposed to moisture, including electric motors, radios, radar and GPS

Industrial

- Bearings and bushings, pulleys, winches and rolling stock
- Air tools and power tools
- Stuck valves
- Wire rope and cable, including brake and throttle cables
- Electric motors, pumps, alternators and starters
- Switches, breaker and fuse holders

Household, Lawn & Garden

- Locks, hinges, door and window slides
- Tools
- Garage door openers, casters and tracks
- Fans
- A/C units

Automotive

- Unpainted metal parts
- Frame and body
- Lugs, nuts and bolts
- Battery terminals

Sporting Equipment

- Bearings
- Fishing reels
- Firearms and hunting gear
