

NF10 Tilting Drum Stand - 250kg Capacity

Tilting drum stands are virtually self-loading as drums can be loaded and transported by one man, without him touching the drum. They expedite the easy handling of large and small drums.

Castors with rubber wheels provide smooth movement and easy positioning of stands.

When stand is in the horizontal position, handles can be retracted.

Plastic hand grips resist slipping when drums are being loaded or transported.

NBF35 Drum Tilter

Fully enclosed chain drive & crank operated worm gearbox to assist tipping drums. 180 degree rotation. Suits steel drums up to 200 litres.

Handles steel drums without complicated adjustments or exchanging attachments. Drums are raised & transported simply by engaging the screw operated rim clamp. Hydraulic foot operated pump raises drum.
