

## FLAMMABLE LIQUIDS SAFETY CABINET – 450L

PART NUMBER: SCIRF450

Dimensions	140 x 81 x 185 cm
Capacity	450 litres

### DETAILS

Store 450 litres of flammable substances in this large Class 3 flammable liquid safety cabinet. The dual purpose cabinet can be used for either the vertical storage of two 205 litre drums or insert shelves for storing up to 450 litres of smaller containers.

- Isolate flammable liquids within a cabinet to prevent ignition.
- Promote good house-keeping practices by storing all flammable liquids together and away from non-compatible products.
- This flammable liquids safety cabinet has been designed for indoor use.
- Double wall construction with 40mm thermal barrier.
- Cabinet includes vent ports with integral flash arrestors fitted on each side.
- Two adjustable shelves plus fixed base shelf.
- Storage is above the sump not in it – features an integral spill containment sump with drain and suspended perforated floor.
- UV-stabilized powder coat finish for high durability and finish.
- Two self closing doors with adjustable hydraulic door closure.
- Adjustable levelling feet for stability on uneven surfaces.
- Flush mount handle and key lock.
- Doors feature stainless steel pin continuous hinging for strength and reliability.
- Built-in grounding connector on outside panel for easy grounding if required.
- Flammable liquid safety cabinet includes clear, descriptive safety and warning signage applied in accordance with Australian Standards.
- Manufactured in Australia to comply with AS1940-2017 – The storage and handling of flammable and combustible liquids.
