

## FLAMMABLE LIQUIDS SAFETY STORAGE CABINET – 250L SLIMLINE

PART NUMBER: SCIRF250N

Weight	154 kg
Dimensions	81 x 81 x 185 cm
Capacity	250 litres

### DETAILS

Store 250 litres of flammable substances in this heavy duty, Class 3 flammable liquids safety storage cabinet. The slimline, extra deep cabinet provides an alternative sized cabinet for storing flammable substances.

- This flammable liquids safety storage cabinet has been designed for indoor use.
- Double wall construction with 40mm thermal barrier.
- Cabinet includes vent ports with integral flash arrestors fitted on each side.
- Two adjustable shelves plus fixed base shelf.
- Storage is above the sump not in it – features an integral spill containment sump with drain and suspended perforated floor.
- UV-stabilized powder coat finish for high durability and finish.
- Single self closing door with adjustable hydraulic door closure.
- Adjustable leveling feet for stability on uneven surfaces.
- Flush mount handle and key lock.
- Door features stainless steel pin continuous hinging for strength and reliability.
- Built-in grounding connector on outside panel for easy grounding if required.
- Includes clear, descriptive safety and warning signage applied in accordance with Australian Standards.
- Manufactured in Australia to comply with AS1940-2017 – The storage and handling of flammable and combustible liquids.
