

## INDALEX ALUMINIUM 6 STEP DUAL PURPOSE LADDER

### Description

- Made from anodized aluminum for better corrosion resistance and lower retention of dirt and grime
- Fold up into a straight ladder
- Full-width rear section for greater stability
- Internal spreader bars
- Blue copolymer top with paint can hook
- The steps are fastened to the side rails with solid aluminum rivets
- Heavy-duty lock & release clips with spring steel to ensure they stay in place
- The fastening method has been specifically chosen for each joint on the ladder to ensure your ladder won't loosen up over time
- Manufacturer's Lifetime Warranty for faulty materials or workmanship is provided.
