

LEEAKY HOSE

Leeaky Hose is simply the most environmental and resource friendly irrigation system devised. It cuts watering needs by upto 70% and can even be used with recycled and rural water supplies.

Once Leeaky Hose is installed it's connect, set and forget. Leeaky is maintenance and worry free. It only needs a trickle of water to make your garden bloom.

Leeaky can be installed easily above ground or out of sight below ground, in runs of up to 100 metres.

- Saves up to 70% on water usage
- Easy to install and maintain - light and pliable, no drippers or jets to block
- Waters the garden NOT the driveway
- Uses standard hose fittings and connectors
- Uses mains, rain, dam or recycled water
- Delivers water directly to plant roots
- Invisible system, see your plants not the irrigation
- Aerates soil increasing microbic action and nitrogen levels
- Irrigates up to 1.8m each side of the hose
- Can distribute liquid fertiliser
- Perfect for awkward gardens and narrow strips

Code	Internal Dia.	Length of Coils
33:LEEAK	12mm	20mt, 30mt, 50mt, 100mt & 200mt
33:LEEAK	18mm	20mt, 50mt & 100mt
