

Suzi Coil Air Brake Tube

Esdan Plastics Suzi coil Air Brake System Tubing is manufactured from Nylon. These products are designed specifically for the transfer of air

between the prime mover and semi-trailer, although other applications such as truck, trailer combinations are often used. Esdan Suzi coils are all SAE J844, helically coiled to give the desired working length, and retractable to a very short length to store out of the way

when not in use. Long tail Suzi coils have a 1 metre tail for applications where the air connections are elevated 1m above the chassis.
