**StockMaster**<sup>TM</sup>  
SAFETY AT EVERY STEP

## StockMaster SureFoot is a safe and portable temporary work platform.

StockMaster SureFoot is a safe and portable temporary work platform with exceptional strength. Designed for trade professionals StockMaster SureFoot is built to last.

### SureFoot is big and tough!

**Big Platform** - SureFoot platform steps have a generous sized platform with a working area measuring 425 x 550 millimeters and the reinforced all aluminium platform with an anti-slip surface and waist high rear safety bar provides a secure working environment.

**Big Steps** - To improve comfort SureFoot platform steps have a working surface area over twenty five percent greater than most platform ladders. Manufactured using a full box section the step is both riveted to the side rail and locked with a swaged reinforcing tube providing exceptional strength and durability.

**Big Feet** - To improve security Surefoot platform steps feature a tough jumbo-size full-boot foot to maximise on-ground grip. Made from a tough polymer it is long lasting and with just one fixing the changeover is easy when it comes time for replacement.

**Big Load** - To ensure safety StockMaster SureFoot employs a ladder frame design that will not twist or deform up to the maximum load rating and when correctly used. With reasonable care StockMaster SureFoot will give many years of service for the trade professional and cost less in the long run.

### StockMaster SureFoot Platform Ladders have . . .

- ✓ A large, tough, all aluminium platform with anti-slip surface
- ✓ Oversized platform steps with full box section for strength
- ✓ Jumbo sized and tough feet for maximum on-ground grip
